

COVID-19 VACCINE RESPONSE RESEARCH STUDY IN PATIENTS WITH INFLAMMATORY BOWEL DISEASE

Are you planning to get a COVID-19 vaccine?

- We are studying how well COVID-19 vaccines work in patients with IBD.
- This study does involve in-person visits with blood collection.
- Participants will be paid for participation.

If you have IBD and plan to receive or have received a COVID-19 vaccine, contact the study team:
